Note

Use animations sparingly for emphasis.

Standard Block

Definition

A language model predicts the probability of word sequences.

Example Block

Example

GPT-4 is a large language model trained on internet text.

Alert Block

Warning

Always verify AI-generated content for accuracy.

Two-Column Layout

Left Column

- Point A
- Point B

Right Column

- Point X
- Point Y

Simple Table

Model	Year	Params
GPT-2	2019	1.5B
GPT-3	2020	175B
GPT-4	2023	Unknown

Code Example

```
1 def hello():  
2     """Simple function example."""  
3     print("Hello, Dartmouth!")  
4     return True
```

Equation

The attention mechanism:

$$\text{Attention}(Q, K, V) = \text{softmax} \left(\frac{QK^T}{\sqrt{d_k}} \right) V$$
